

We're saving lives ...

The earlier cancer is detected, the better the chance a life may be saved. Angela Tafel is a living example of the importance of early detection. As a breast cancer survivor, every day Angela celebrates the lifesaving care she received from Norton Cancer Institute.

Unfortunately, there are women in our community who cannot afford preventive care and screenings to detect cancer at an early stage. With donations to the Norton Healthcare Foundation, women will continue to have access to cancer screenings - screenings that can make a difference in treating cancer and saving lives.

At Rodes ^{for} Her, we want to make sure that all women in our community continue ^{to} have access to cancer screenings, treatment and support. By hosting the annual Derby Divas event, we are pleased to support the Norton Healthcare Foundation and programs offered by the Norton Cancer Institute Breast Health Program.

Please join us April 16, 2009, for another fun Derby Divas' event!

Rodes

FOR HIM · FOR HER

Rodes ^{for} Her congratulates the Norton Healthcare Foundation on its continuing efforts to ensure women in our community have the medical care they need at Norton Hospital, Norton Audubon Hospital and Norton Suburban Hospital.
